SUMMARY

Full Stack Developer with 6+ years of experience building web applications and backend services with NestJS and React for banking, telecommunications, healthcare, and logistics clients in Peru, Chile, Argentina, Colombia, and Spain. 3+ years at NTT DATA on projects for Banco de Crédito del Perú, Santander, Telefónica de Argentina, WOM, Clínica Alemana, and Correos Express: frontend and full-stack development (microservices and micro-frontends) and platform support (Jenkins pipelines and remediation of 20 security vulnerabilities). At KURAX I provide L3 support for legacy systems, build new projects, and have integrated 3 external providers. In personal projects I build multi-tenant SaaS platforms with Next.js, NestJS, and Go, and an e-invoicing microservice for SUNAT, Peru's tax authority.

PROFESSIONAL EXPERIENCE

Full Stack Developer

KURAX | Tacna, Peru (on-site) | 08/2025 – Present

15-person team.

Stack: NestJS, React, Astro, Python, GitHub Actions

- Provide L3 support for the company's legacy systems and resolve production incidents.
- Build new full-stack projects with NestJS, React, and Astro.
- Integrated 3 external providers into the company's systems: Lotobola, Calimaco First, and GR Autoservicios.

Freelance Full Stack Developer

JEP Importaciones | Remote | 10/2026 – Present

Stack: React, TypeScript, Vite, TanStack Query, React Hook Form, Zod, Vitest, Playwright

- Develop the management dashboard and the public online store: products, categories, inventory, leads, and a sales team section with digital business cards and QR codes.
- Implemented owner, administrator, and salesperson roles, plus sales reports.
- Set up a typed client generated from the API's OpenAPI contract, unit and integration tests (Vitest, Testing Library, and MSW) and end-to-end tests with Playwright.

Software Developer

NTT DATA | 05/2022 – 08/2025

Global IT consulting company. Assigned to 6 client projects in banking, telecommunications, healthcare, and logistics.

Stack: NestJS, React

Client: Santander (2025) · Frontend / DevOps

- Reviewed and adapted component deployment pipelines for a new platform.

Client: Correos Express, Spain (2024 – 2025) · Frontend

- Fixed responsive design bugs on the new Correos Express website, refactored components and logic, and implemented form handling and validation.

Client: Clínica Alemana, Chile (2024) · Full Stack

- Developed microservices and the micro-frontend for the new hospital bed request module.
- Reviewed and modified database stored procedures.

Client: Banco de Crédito del Perú, BCP (2023) · DevSecOps

- Provided L2 support for the bank's Jenkins pipelines.
- Reviewed and optimized the Jenkins infrastructure and tooling to improve the user experience.
- Fixed 20 security vulnerabilities in libraries and code across Java and Docker components.

Client: WOM, Chile (2023) · Frontend

- Developed flows for creating user accounts and managing permissions on existing accounts, with functional component tests.

Client: Telefónica de Argentina (2022) · Full Stack · L2/L3 Support

- Provided L2/L3 production support: monitored microservices, analyzed web and backend error logs, and resolved incidents in both layers.

Full Stack Developer

CoDev | Agencia Digital | Remote (Colombia) | 05/2021 – 04/2022

- Backend: developed Sistema Cristal for Compensar, a Colombian family welfare fund.
- Frontend: developed the back office for evaluating entrepreneurs, and designed and integrated the website for collecting entrepreneurs' data.

Freelance Developer

Self-employed | Remote | 02/2020 – 12/2021

Concurrent with CoDev from 05/2021.

- Netgou (2021) · Full Stack: developed Sistema Adulto Mayor (senior citizen services system) for Compensar (Colombia).
- Wuay (2021) · Frontend: developed the interactive menu for businesses in Colombia and the back office for managing them.
- Regional Health Directorate (2020) · Frontend: developed the Metas (Goals) and SIIA Gerencia modules.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, Python, Go, Kotlin, HTML5, CSS3

Frontend: React (React.js), Next.js, Angular, AngularJS, React Native, Astro, Tailwind CSS, TanStack Query, micro-frontends, responsive design

Backend: Node.js (NodeJS), NestJS (Nest.js), Express, REST APIs (RESTful), OpenAPI, microservices, queues (BullMQ), webhooks, third-party integrations

Databases: PostgreSQL, MySQL, MongoDB, Redis, Firebase, Prisma, stored procedures

DevOps: GitHub Actions, Jenkins, CI/CD, Docker, Git, Prometheus, Grafana, vulnerability remediation

Testing: Vitest, Testing Library, Playwright (E2E), component testing

Practices: Clean Architecture, hexagonal architecture, SOLID, Clean Code, multi-tenancy, L2/L3 production support, monitoring and log analysis

PERSONAL PROJECTS

SUNAT E-Invoicing | NestJS · Prisma · PostgreSQL · BullMQ · Redis · Prometheus · Grafana
Multi-tenant microservice that issues invoices, receipts, and credit/debit notes as signed UBL 2.1 documents, submits them to SUNAT over SOAP, and reads the CDR (SUNAT acceptance receipt). Queues with retries, circuit breaker, outbox, and signed webhooks (HMAC); hexagonal architecture.

Víbora | Go · PostgreSQL · sqlc · Next.js 16 · React 19 · OpenAPI · Playwright
Multi-tenant booking SaaS for padel, tennis, and pickleball clubs in Chile: branded booking site for each club, payments with signed webhooks, email outbox, and admin dashboard. Clean Architecture enforced with golangci-lint.

Podio | Next.js 16 · React 19 · NestJS · Prisma · PostgreSQL · OpenAPI · GitHub Actions
SaaS for combat sports academies and tournaments: registration, weigh-ins, brackets, live bout tracking, and signed official bout results, with a public site for each organization.

BabyMind | React Native · NestJS · PostgreSQL · Prisma · Redis · Kotlin Multiplatform
Parenting app for Android with a NestJS API: milestones, sleep tracking, health records, and a generative AI assistant. Native rewrite with Kotlin and Compose Multiplatform (Android and iOS) with an encrypted offline cache.

Turismo Sin Fronteras | React 19 · TypeScript · Vite · Tailwind CSS · TanStack Query · Zustand · Gemini
Travel agency website: tour catalog, English/Spanish i18n, currency conversion, and WhatsApp bookings.

EDUCATION

Bachelor's Degree in Systems Engineering | Universidad Privada de Tacna | 2019

LANGUAGES

Spanish (native) · English (basic)
